Each enterprise conducts its own specific construction activities and is involved in the total volume of installation works, as well as in construction of LLC “Shurtanneftegaz”, LLC “Mubarekneftegaz”, LLC “Mubarek Gas Processing Plant” Subsidiary Joint-Venture “Kokdumalak”, JV “Kokdumalakgaz”, LLC “Neftegazmontaj”. The Company has participated in construction of investment facilities, built under foreign projects with the use of foreign technologies. Besides, the Company has been successfully cooperating with such well-known foreign companies as: BSI Industries, LLC “LUKOIL”, “Petronas”, Chinese CNPC, South Korean IRED, JV Uz-Kor Gas Chemical and many others. The Company’s each structural enterprise has its own production and technical base and armed with necessary equipment, power units, lifting machinery and equipment, mobile production and technological motor transport, as well as highly-skilled operating and technical personnel.

1. Unitary Enterprise “KIP Montajservice” is located in the town of Kagan, Bukhara region. The main field of expertise of the enterprise is the installation of instrumentation, setting up of automation and commissioning of the equipment at the facilities of capital construction, overhaul and maintenance, installation of process pipes, commissioning and maintenance of fire alarm and automatic foam fire suppression systems. “KIP Montajservice” was established in 1994 and operates in the area of instrumentation and commissioning of automation equipment. It has its own administrative building, industrial and technical base, two petrol stations. The company employs 199 qualified specialists in the area of instrumentation.

2. Unitary Enterprise “Karaul-bazar Maxsus Montaj” is located in the town of Karaulbazar, Bukhara region. The main area of expertise of the company is the construction and installation of ventilation systems, plumbing installation and gasification of settlements. The company was established in 1994, it has its own administrative building, industrial and technological base, facilities, industrial spur for transporting fuel and cargo, construction sites located in the town of Mubarek. The company employs 254 industrial and construction personnel.

3. Unitary Enterprise “Neftegazuskunamontaj” is located in the town of Karaulbazar, Bukhara region. The main area of expertise of the company is the installation of surface and underground structures at oil and gas industry facilities, installation of technological equipment and pipelines, compressor stations, oil and gas refineries, as well as other facilities of oil and gas industry. The company was established in 1994 and

has its own production and administrative building, as well as industrial and technological base, warehouses, facilities, buildings, construction sites located in the towns of Kagan, Bukhara region, Shurtan and Mubarek, Kashkadarya region. The company employs 365 production and technical staff.

4. Unitary Enterprise “Trubodetal” is located in the town of Kagan, Bukhara region. The main area of its expertise is the component assembly of units and manufacture of pipeline fittings and christmas trees, metal structures, supports for technological pipelines;

- manufacturing of the slings and sling hauling devices;
- manufacturing of expanded metal steel;
- providing oil and gas construction facilities with hoisting machines and technical oxygen;
- providing special trucks for transportation of pipes and installation of equipment;

The company was established in 1994 and operates in the industry of localized products. The company has a territory of __hectares and an industrial spur on its balance-sheet for supplies of fuel and other cargo. The warehouses for cargo storage are manned with 584 highly qualified engineering specialists and welders who are equipped with the following equipment:

No.	Type	Quantity
1	Cranes, total	26
	Including with carrying capacity	
	Up to 25 tons	17
	Up to 50 tons	6
	Over 50 tons and up to 200 tons	3
2	Pipelayers, total	23
3	Bulldozers and excavators, total	9
4	Welders and power stations, total	45
	including propelled based on the base of HTZ, RTM and K-701	9
5	Thermoblocks and field testing laboratories on the basis of the KrAZ and Ural trucks	5
6	Pipe trucks on the basis of KrAZ and Ural trucks	13
7	Trailers and saddle-type towing vehicles	11
8	Heavy-load dump trucks	5
9	Buses and minibuses, shift team trucks	34
10	Tank trucks	5

11	Other types of motor transport	98
12	Laboratory ETL/35K	1

5. “Mubarekneftegazmontajspetsstroy” LLC is located in the town of Mubarek, Kashkadarya region. The main area of expertise is the installation, tying the linear part of oil and gas pipelines, compressor stations, oil and gas processing plants. The company was established in 1994, it has its own administrative building, industrial and technological base, construction sites located on the territory of Kashkadarya region. It employs 243 industrial - technical personnel.

6. “Neftegazsanoatarmaturasi” LLC is located in the town of Kagan, Bukhara region. The company’s main area of expertise is civil works during installation of technological equipment and participation in the installation of the linear parts of gas pipelines. The company was established in 2009. It employs 41 builders and fitters.
